EXPLANATION OF THE HIGH PRICE OF THE COMPANY'S STOCK.

Only \$40,000 of the Original \$800,000 Capitalization Remains to Be Paid to Security Holders.

ASSETS ARE VERY VALUABLE

AND HOLDERS OF STOCK AT THE "FINISH" WILL REAP HARVEST.

Rid of 500 on the Local Exchange Yesterday - Price Already Has

Touched 600 on a Sale.

Exchange trading was dull yesterday, and was featureless except for a bid of 500 for Consumers' Gas Trust stock. The bid Saturday was 450, but a sale was made earlier of five shares at 600. There is a belief that 600 will be reached again. The activity of this stock is a mystery that does not permit of much exploration, but stock brokers think there can be but one reason for which such a tremendous price is offered for this line. The inexpert in stock trading wonders why, with gas practically exhausted and other gas stocks ruling low -Indianapolis being bid at 65-the Consumers' stock is so valuable. The capitalization of the Consumers' Gas Trust Company was \$800,000. Of this all but \$40,000 has been paid off under its prima facie conditions. There remains but 5 per cent, of the gross capitalization unpaid, and at the sale last tion. None of the stock has been wholly

95 per cent. of its par value with interest. The explanation of stock brokers is that ing stock because of the assets of the corporation. It is realized that the corporation will have to terminate its natural gas business when its production ceases to be a practical supply for this city. The assets, it is held, will certainly belong to some one, and this some one will be the stockholders who are "in at the finish." These assets are estimated at from \$500,000 to \$1,500,000, and the stockholders' interest will be in the nature of vested rights. The assets comprise the pipe lines of the company, its pumping stations and its land leases. These leases include the exploration not only for natural gas, but for oil and minerals. The particular area now under lease by this company is believed to be immensely valuable for the production of oil. The pipe lines which have brought gas alone to Indianapolis are in an excellent state, and if dug out of the ground could be sold for greater price than was paid for them. The Indianapolis company has taken up some of its lines and sold them at a high price, and the Manufacturers' company did likewise. The pipe lines of the Trust com-pany are said to be worth \$100,000 at least. A. W. Thompson has been the heaviest buyer of the local brokers. It is said he is buying for the financial interests represented by the Frenzels, who are said to control four-fifths of the remaining stock. Nicholas McCarty and George J. Marott are also holders of good blocks. A num-ber of other persons hold their original stock, and most of them will not sell at any price. One, a lawyer, says that when the "finish" of the company comes, stock-holders will be beneficiaries of the distribu-

tion of the assets. A sale of American National stock at 138 was reported and a bid of 200 for Merchants' National brought out no response at that or any other price. The sales of stocks yesterday were:

material improvement to that stock, although dealings were moderately heavy. The decline of 31/2 points in Central Electric resulted from reports of labor troubles at that company's works at Schenectady. Profit taking at the last hour brought recessions to a number of active issues, and, while the market recovered, the close was irregular. The question of increased railway wages continues to be a matter of serious discussion, as well as the congestion of freight traffic on the leading roads. and it is becoming clearer daily that the capacity of practically every trunk road will be taxed to the utmost.

ANTI-MERGER HEARING.

J. J. Hill and Other Prominent Men

Will Not Be Recalled. NEW YORK, Nov. 17 .- The hearing in the action of Minnesota against the Northern Securities Company began in this city today before Frederick G. Ingersoll, the special examiner appointed by the State of Minnesota, which contends that the position of the Northern Securities Company in regard to the railroads involved is in violation of a State law against the merging of parallel lines. When the hearing was called Mr. Munn suggested that the testimony of J. J. Hill, president of the Great Northern; C. S. Mellen, president of the Northern Pacific; W. P. Clough, vice president of the Northern Securities Company; Charles Steele and George W. Perkins, of J. P. Morgan & Co., and that of J. P. Morgan, given in the Peter Power case, be made a part of the record in the present hearing. This suggestion was adopted as was also a later one that certain exhibits used in that case be admitted in evidence. By this agreement the prominent men men-tioned will not be called to testify.

LACK OF CONTRACT STUFF IS HEAVY BULL INFLUENCE.

Good Export Demand Also Develops-Other Grains and Hog Products Close at Good Advances.

CHICAGO, Nov. 17.-Grain markets were active to-day and higher prices ruled, December wheat closing %c higher, corn 2c up and oats 1/4c higher. January provisions closed 121/0171/2c higher.

There was great activity in wheat at the opening and a large volume of business was transacted during the first halfhour of trading. Later in the day a quieter feeling developed, but toward the close another onslaught was made on the market and the close was at the top for December, while May was only a shade under the best figure of the day. Commission houses were active buyers early, while a leading long was also credited with taking on quite a line of both December and May. December opened 46% higher at 72% @73c, and 94% | held steady around 73c until near the close, when there was another advance and final figures were at the top at 731/2c, showing a gain of %c. World's shipments for the week were 11,164,000 bu, against 8,972,000 bu a year ago. Minneapolis and Duluth reported receipts of 1,246 cars, which, with local receipts of 184 cars, twenty of contract grade, made a total of 1,:30 cars, against 1,361 last week and 1,473 a year ago. Corn ruled strong, especially for near-by futures. Wet weather and unfitness of the great bulk of new corn for shipment were the main bull factors. A strong export demand for old corn was also a strengthening influence. Shorts were again much disturbed over the prospects of getting the goods to fill their contracts for December delivery and free covering by them was the features of the day. There was also a good general demand. There was considerable realizing by longs, but offerings were easily absorbed. December opened 1/4c to 15/4c higher at 531/4054%c and held firm throughout the day, the close being at the top notch, at 55c, a gain of 2c over Saturday's close. Receipts were 144 cars, fourteen of contract grade. with December up &c. after ranging

There was little doing in provisions, the principal feature being realizing by longs, outside shorts taking the offerings. Firmness prevailed throughout the day on decreased hog receipts, with higher prices at the yards and on strength in corn. close was strong, with January pork 171/2c higher at \$15.321/2; lard, 121/4c higher at \$9.171/2, and ribs 121/4c higher at \$8. generally was possibly as good as the average at the close of last week, but probably none of the offerings were equal to those that sold at the extreme price on Saturday. The market open with salesmen asking a good advance in price with salesmen asking a good advance in prices, in keeping with reports from other places, and buyers were inclined to pay a little higher prices, but were slow to meet the demands of salesmen, and it was rather difficult to consummate sales. There was not a liberal request from outside sources, and it was evident that local packers would have to be forced into paying an advance, therefore the trading was guiet and prices were therefore the trading was quiet and prices were irregular. It was generally conceded at the close of business that the market in a general way was about 5c higher than Saturday, but occasionally it was claimed that sales were no higher, and in a few isolated cases lee advance was reported. A good clearance was finally made. The conditions prevailing in the general market to-day indicate a healthy feeling, and ordinarily market to-day indicate a healthy feeling, an ordinarily some improvement might be expected in the near future, but it is evident that local packers will be very slow in following an ad vance, and unless there is considerable encour agement from outside sources it is not hope for too much. There were no hogs here to-day good enough to bring over \$6.45, and other sales ranged from \$6.05 to \$6.40. Quotations: Good to choice medium to heavy...... Mixed and heavy packing
